

The NewTechWood range offers you a one-stop-quality-shop for all your decking, screening and cladding needs, and as all products are part of the same family, you get consistency of colour and finish no matter the application.

With rich colour variations, from deep timber tones through to smoky wisps of grey, with natural wood grain finish, it means we've got the perfect colour for your special project, enabling you to match your decking, screening and cladding requirements with style.

The NewTechWood range of composite products has myriad uses for both **commercial and residential** applications and caters for the professional as well as the DIY-er.

Decking, Cladding, Screening and Fascia Profiles

NewTechWood is an attractive natural looking and environmentally responsible alternative to traditional outdoor timber decking, and an ultimate solution for residential and commercial decking, cladding and screening. We also provide a range of finishing boards to use for fascias, picture framing, breaker boards, stairs, and screening.

- ✓ Decking boards: **Terrace & Coastal** Ranges (Solid)
- ✓ Decking finishers – fascias and solid square edge
- ✓ Hidden clip systems
- ✓ External Wall Cladding

Profile Overview

Refer to the relevant product section for in depth product specification details.

NewTechWood Thinks of the Future and Thinks Green!

Reduces carbon footprint.

Eco and environmentally friendly.

NewTechWood recycling saves over 5,440,000 kg of plastic from being buried in landfills every month!

Advantages of using NewTechWood:

- Real timber look and feel
- Fully capped – around all four sides for full protection
- Modern choice of colours
- Complementary Product range – Decking, Screening, Fascias and Cladding
- Residential and Commercial Project applications
- Low maintenance – No oiling, sealing or painting
- Environmentally friendly and responsible - Made from 95% recycled materials
- Resistant to UV, moisture, staining, mould, rot and termites
- Durable – won't crack or split
- Hidden clip system
- Set at a lower price point than comparable brands
- Backed by a 25 year Warranty (10 years for commercial applications)
- Local Australian technical support team

Part of the beauty of a hardwood deck comes from the subtle mix of colour tones and hues, no single board is exactly alike. **NewTechWood's blending of natural tones produces the same wonderful look.** The fine-grained texture gives the deck boards a natural, bare feet feel at home, and there is no danger of splinters.

NewTechWood provides a system of integrated finishing profiles to make installation easy and to give your project a seamless quality.
